This presentation introduces a variety of common maritime legal issues arising in the recreational and commercial sectors. The focus is on providing practical knowledge such as considerations in dealing with vessels abandoned at public and private facilities, the implication of race committee rulings on civil actions, strategies in responding to a denial of coverage under a yacht policy and environmental considerations in boat ownership. This program will arm you with the basic tools necessary to navigate safely around an admiralty issue.

Plaintiff in a civil action is preparing to make a settlement demand. The defense and insurance company know it's coming. How does each player protect its interests? How does the insurance company avoid a "bad faith" rejection of a policy limits demand? Is the standard "strict liability" or "reasonableness"? Does it matter how many claimants there are? Hear from two highly respected and experienced litigators who will discuss the obvious and not-so-obvious issues that arise in the settlement phase of civil litigation. Learn to protect your client's interests regardless of which side of the "v" you are on.
